VITAL STATISTICS FOR THE YEAR 1973

MEET YOUR SELECTMEN

John W. Sargent, George I. Wiggins and Ernest L. Cutting, II

## A MESSAGE FROM YOUR SELECTMEN

The year 1973 certainly was a very active one for the Town of Sunapee. We were in the midst of our water and sewer construction projects. During the summer, construction was also started on the new junior-senior high school. Bonds for all three projects were sold during the year.

During the construction for the water and sewer projects many inconveniences have occurred, such as broken water mains, dust conditions, detours and what have you. We want to thank the people for being so understanding and patient during this time. Fire insurance rates for the Town in general, will benefit, due to the extension of water mains, the addition of more fire hydrants, and the new seven hundred thousand gallon water storage tank. This brings our total storage capacity to one million gallons.

With all the construction and other increased expenses that we had, we were fortunate to hold our tax increase to one dollar per thousand dollars of valuation. This was largely due to construction of new homes, other buildings, and some increased revenue from other sources. The total over-all increase in valuation for 1973 was approximately two and one-half million dollars.

Another expense facing the Town is our town dump. July 1st, 1975 is the deadline for open burning. Your Selectmen have spent considerable time studying the situation. More research is still needed and any suggestions would be helpful. Some revenue sharing funds have been placed in a savings account for this project.

In the closing months of the year we began to feel the impact of the energy crisis. Fuel, gasoline and many other items necessary to operate a

municipality, became scarce and expensive. The uncertainty of these items and the increase in costs will certainly be reflected in the budgets for the year 1974.

The Planning Board, Conservation Commission, Selectmen, other Town Officials and many citizens along with Bob Ward of the Upper Valley-Lake Sunapee Council spent many hours and several public meetings working on a zoning ordinance for our town. As yet, we have not been able to put together a zoning ordinance that we feel would be feasible to present to the people at Town Meeting in 1974. The time element was also a factor, as it is necessary to have two public hearings before an ordinance can be put to a vote by the people.

At this time, we would like to make note of the loss of Georgia E. Roach who passed away on January 1, 1974. She was a devoted citizen and town official, having served many years as tax collector and overseer of public welfare. We wish to express the Town's sympathy to her family.

In closing, we wish to thank all other elected officials, department heads, the various commissions, boards and town personnel for their cooperation and assistance during the past year. This is greatly appreciated by your Selectmen.

We welcome any suggestions or help for our common effort. Again — thank you!

*Respectfully submitted,*  
Ernest L. Cutting, II

## YOUR REPRESENTATIVE REPORTS

The last legislative session was a busy one. I was appointed to two committees: Constitutional Revision and Claims, Military and Veteran Affairs. In order to keep up with the vast number of bills in committees effecting towns and cities I used the services of two research assistants from the New Hampshire Municipal Association.

Being a strong believer of home rule I worked to stop passage of all bills that would erode the tax base or give the state the powers that should remain at the local level. I introduced and got enacted HB 755 conferring immunity on city and town officials.

Other bills I either cosponsored or worked to ass for the good of local government: HB 686 — Towns have lein for uncollected property taxes on houses, trailers and mobile homes.

HB 851 — Emergency zoning bill which gives town and cities some control over developers.

I worked with Representative Nutt of Hanover to keep the resident tax monies in the cities and towns. I hepled pass SB 104 — the Guid Forest bill. I was responsible for killing HB 500 — a very restrictive bill which would give the management of cities and towns and the school boards no power to negotiate with employees.

On many occasions I have met with the governor to discuss municipal problems which seem to compound every year. I met with the governor and Commissioner Duval on the problems of our public works department in getting used to OSHA type regulations and getting help through educational process concerning the enforcement of them, thus eliminating fines.

As Finance Chairman of our county delegation, I am working to see that our tax dollars are spent for fullest value.

It has been a pleasure to serve you.

### WATER-SEWER COMMISSION ANNUAL REPORT FOR 1973

During the past year the separate Water and Sewer Commissions were combined into a single Commission to be composed of the current six members and one additional member to be elected at Town Meeting, March 1974. This combination was effected in September of 1973 with approval of the State Legislature.

A regular meeting date and place were established, to be the last Thursday of each month at 7:30 P.M. at the Town Office. Officers of the Commission were elected.

The Commission was fortunate to secure the full time services of Mr. Ernest Cutting, II as Superintendent of the Department and of Mr. Charles Bostrom as Supervisor of the Sewage Treatment Plant. Mr. Bostrom is also assisting in regular maintenance work of the Department.

During the year approximately 5000 feet of new water main was installed and soon will be inspected for final approval and a new steel seven hundred thousand gallon capacity reservoir was built.

The Commission has addressed itself, in Cooperation with the Selectmen, to the question of water and sewer construction and an

Ordinance relating to sewer use has been prepared and mailed to all users of the town.

Respectfully,  
 Gordan Ramspott, *Chairman*      Ronald Wyman  
 John McGrath, *Secretary*      Richard Mathiesen  
 George Merrifield      William Roach

### BEN MERE AREA REPORT

During the year of 1973 the Ben Mere Committee worked toward completion of payments due on the property and toward a small beautification project around the descriptive sign.

Payments are nearly completed due to the generosity of quite a few people who responded to an additional appeal and we are most hopeful that if this generous attitude continues that we will be able to pay all monies due during 1974.

The sum of \$182.99 only, was spent of the monies allowed, realizing that due to the sewer construction, storage of dirt, etc. this was not the year for a major effort.

The committee is recommending completion of the parking area during 1974, feeling that this does respond to a need for summer use of the area and is a reasonable use of town funds at this time.

Respectfully,  
 JOHN McGRATH  
*Chairman*  
 Ben Mere Committee

## ABBOTT LIBRARY REPORT — 1973

The library is now open 23 hours per week:

Monday 1 to 8 PM.

Wednesday 1 to 8 PM.

Thursday 10:30 AM. to 2:30 P.M.

Friday 1 to 6 PM.

The Thursday hours were initiated on April 1st and we now have a pre-school story time at 10:30 on Thursdays on a year round basis. In addition to this the services offered by the Library include: telephone service information, reference requests, renewals and for inter-library loans; a swap shelf of paper-backs; a pattern exchange for people who sew; talking books and talking book machines for anyone who for any reason cannot use printed material; a book delivery for shut-ins; books in large print; a copying service and a revolving collection of new adult fiction and non-fiction which includes most of the current best sellers.

Improvements this year have included drainage work done to prevent seepage in the children's room, an ice-cap on the front roof, a hot water heater, a three-section stack and a small office refrigerator was donated by a patron of the Library. The Sunapee Woman's Club donated \$30 and the Friends of the Library donated \$100 for books this year. The Friends of the Library also sponsored the Little Red Wagon, a children's theatre group from the University of New Hampshire and the Friends conducted a flea market and catered for two wedding receptions to earn money for their projects.

The Sunapee Woman's Club hold their bi-monthly business meeting and the Sunapee Historical Society their quarterly meetings at the Library.

The TASC project was concluded on October 1st for lack of federal funds. This project had operated for two years as a cooperative project with the libraries of Charlestown, Claremont, Newport, and Sunapee and furnished library services to the elderly. The office equipment was divided among the participating libraries and the Abbott Library received the typewriter, stand and office chair and \$400 in books.

I have attended the quarterly meetings of the District Advisory Council, the New Hampshire Library Association Spring Conference and the New England Library Association Fall Conference and attend the monthly meetings of the New Hampshire Library Association Executive Board. I received a certificate of graduation from the University of New Hampshire Division of Continuing Education in July for Completion of the eight courses in Public Library Techniques which represents 200 hours of classroom instruction.

The library collection is constantly being added to and improved and the children's collection is greatly expanded.

I wish to express my appreciation to the Board of Library Trustees for all the assistance they have given me.

*Respectfull Submitted,  
MABEL S. DAVIES,  
Librarian*

## PLANNING BOARD

The Planning Board this year has worked closely with the Upper Valley Planning and Development Council. Many surrounding towns are facing similar difficulties and with the help of Robert Ward the Regional Director we have had unlimited guidance. Arthur Osborne is the Sunapee Planning Board's representative on the Council.

On July 20, 1973, the revised subdivision regulations became effective. Copies of these regulations are available at the Town Office.

The Planning Board has continued to meet the third Tuesday of each month. These meetings are for subdivisions and questions related to our subdivision regulations. Forty lots were approved this year.

In addition to the monthly meetings we have held ten zoning meetings. Members of the Board have felt that a protective zoning ordinance is necessary to direct Sunapee's growth. The Board met with the Selectmen, Conservation Commission and Robert Ward. Our first objective was a questionnaire which was given out to each Registered Voter in November 1973. The results of the questionnaire were in favor of zoning. Thirty volunteers signed up to help. These volunteers and leaders in town are now working with the Board on a zoning ordinance. The Board plans to present an appropriate ordinance to the town this year.

## INFORMATION BOOTH

Heavy rains and roads being washed out effected the first two weeks of our season. We had cars from 36 different states, and 6 Canadian provinces. Massachusetts represented a large percentage of the cars, then N.H., Conn., N.Y., N.J., Pa., Vt., and R.I. We had a total of 1,074 phone calls. In comparison to last year, we had 415 less cars, but 571 more passengers.

## ENGINEERS REPORT Sunapee Fire Department

From December 1, 1972 to November 30, 1973 the Fire Department answered a total of 38 alarms.

We would like to thank the many townspeople who helped us to successfully celebrate our Centennial on July 14, 1973. We have extra Centennial booklets which are available for the asking at the Fire Station.

Two Fire Schools were held in conjunction with the Newport Fire Department during the past year. The following men attended evening courses for a total of 14 hours — Bergeron, Blankenship, Cunningham, Fitts, Gonyo, Greenbaum, Johnson, Lussier, Osgood, Parenteau, Sherburne, Ruggles, and Warren.

The following attended an all day course — Alexander, Blankenship, Cunningham, Cutting, Densmore, Osgood, Parenteau and Sherburne.

A new station siren has been installed in Georges Mills and is working well.

One of the main difficulties confronting a Volunteer Fire Department is the alerting of its members as quickly and efficiently as possible. We are presently working on a new radio system which we hope will aid us in this problem.

*Respectfully,*

## REPORT of the FOREST FIRE WARDEN and DISTRICT CHIEF

The New Hampshire Forest Fire Service is represented in every town, city or unorganized place in our state by the forest fire warden. Anyone wishing to kindle an outside fire when the ground is not covered with snow must first obtain the written permission of the fire warden. Except for cooking fires, no fire can be kindled between 9:00 A.M. and 5:00 P.M. unless it is a commercial or industrial burn or it is raining. The fire warden is assisted in his work by the District Forest Fire Chief who works for the Department of Resources and Economic Development Forest Fire Service.

Fire prevention was, again this year, the most important part of the Forest Fire Warden's job. Fire statistics show the need with 72% of the fires caused by smoking, debris burning and children. Smokey the Bear is an important prevention tool but he still needs much help from the public. Parents should warn their children of the hazards of playing with matches. Children tend to forget that a lighted match held in their hand is a potential forest fire.

## 1973 REPORT OF THE CONSERVATION COMMISSION

Your commission is pleased to report the highlights of its activities in the general area of conservation, some of which are assigned by law.

Since federal funds were not available to assist cooperatively with the weeding and thinning of the forest area of Dewey Woods and Ledge Pond, it was decided expedient to suspend the project temporarily. The decision was made on advice of Stanley Rastallis of the New England Forestry Foundation.

At a conference of the Selectmen and the Recreation Committee the commission relinquished its control of the open land in Dewey Woods to facilitate the development of a baseball park.

Late in the year an Emergency Fuel Project was initiated and at this writing plans call for extending the privilege to the citizens of Sunapee to take wood from the Dewey forest on a controlled basis.

Delving into a study of Conservation and education possibilities at Coffin Park, the Commission employed Stanley Rastallis to survey and prepare a map of the area so the boundaries would be clear. With this survey it will be possible to cooperate with a park committee in developing the park to its fullest potential. Members mowed the area and took down a clump of dead trees.

In progress is the development of a suitable sign to be placed at the entrance to the Richard Webb forest which the town and commission has under easement for the use of the residents of Sunapee. Two tours of the area were conducted in which the commission cooperated; one of county wide scope with Joseph Synmijko, County Extension Forester, and the other with a small group of Dartmouth students involved in environmental studies.

Progress has been made in enlarging the Conservation Library of reference material now in file at the town office. Hopefully this literature will be of value to the students and adults concerned with a wide range of topics.

Nearing completion is a slide show with commentary developed locally for use by schools and civic groups. Its purpose is to enlighten and encourage an increasing number of our residents to become conservation minded.

The last session of the legislature made it possible for Conservation Commissions to have an input, if they desire, on dredge and fill applications. As of December 31, six have been investigated by the commission.

A brief look at next years plans include studies and additional mapping of town land, coopera-

tion with the Soil Conservation Service in the preparation of soils maps, and the devotion of more time to investigating problems of environmental nature.

The commission appreciates the fine cooperation of the town officials.

*Respectfully submitted,*

STANLEY W. COLBY,  
Chairman

CONSERVATION COMMISSION

Dexter Collins, Sr., Richard Kelly, Eileen Stiles, Ernest Towne

**Excerpts from the Engineer's Report of the Fire Dept. from Old Town Reports:**

**1906** — "The property used and occupied by the department consists of 3 houses, 3 fire pumps, 3 hose wagons, 3 sleds, hook & ladder truck, about 150 ft. of ladder, about 3,000 ft. of lined & unlined hose, 60 oil skin coats & hats, and two "Pony" chemical fire extinguishers, etc."

**1907** — "The hook & ladder truck, which is a relic of "ye olden days" broke down twice, once while out for practice and once when responding to a fire alarm."

**1914** — "Owing to the demands from property owners outside of the fire limits there was added to the department the past year a 35 gal. chemical engine, 6 "Pony" extinguishers which can be taken to any part of the town."

**1919** — "We are in bad shape in getting the apparatus to the scene of the fire at all times, when there was not a horse to be found."

**1920** — "The central fire station has been painted one coat which improves the looks, but for the good of the building there ought to be another coat."

**1921** — "The number of horses has been growing less in the village for the past two or three years and now, in case of fire, we do not know whether there will be a horse to help or not."

**1922** — "The Engineer's purchased an Oldsmobile combination fire truck, which was placed in commission the last of the summer, but, owing to the fact that there was no way of keeping the fire station warm, as soon as cold weather came, had to take it out of commission."

**1931** — "The first piece of motor apparatus bought by the town, in responding to an alarm in the early summer, broke down and it was deemed advisable to junk it. A new Ford 1½ ton truck was purchased."

**1934** — "A motor truck has been installed in the central station to take the place of the old horse drawn wagon of Hose Co. No. 1."

**1935** — "One improvement to the department was the procuring of rubber coats, thus protecting the men from getting wet and perhaps from spoiling a good suit of clothes."

**1937** — "In submitting this report of the Fire Department for the year ending Dec. 31, 1936, we are glad to report that there has not been a large amount of property destroyed by fire. There were three buildings involved, which were total losses, and one set of buildings quite badly damaged. One life was lost in the fire at Georges Mills which destroyed a summer cottage, which was a very sad accident. During the year, there was a motor hook and ladder truck installed at the central station, which was needed very much."

## REPORT OF THE SUPERINTENDENT OF SCHOOLS

*To the Citizens of Sunapee:*

The enrollment for the school year 1973-74 is 401 — divided as follows:

Elementary (Grades 1-6)	195
Junior High (Grades 7-8)	68
Senior High (Grades 9-12)	138

### PRESENT SCHOOL YEAR

We are operating this year under severe space restrictions and attempting to do as good a job as possible within the existing limitations.

In addition to their regular duties, the Sunapee staff is involved in a year of planning and preparations for the school program that will emerge next year with the opening of the new building for Grade 7-12 and the conversion of the Central School to an elementary plant for Grades 1-6.

Dr. Charles Ashley, of the Education Department of the University of New Hampshire, has been engaged as a Consultant to work with the staff on educational needs and curriculum. Some results will be seen in the 1974-75 budget although the over-all curriculum expansion will become more apparent in subsequent years as we are better able to make use of the additional school plant.

### HIGHLIGHTS OF THE NEW BUILDING

#### April 27, 1973

Five contractors submitted bids for the new school with Bion E. Reynolds Contracting, Inc. of Concord, New Hampshire, submitting the lowest bid — which was within the architect's estimate.

#### May 16, 1973

At an adjourned School District Meeting, a bond issue of \$1,175,000 was passed for a new Junior — Senior High School by a vote of 335 to 102.

#### June 7, 1973

Ground-breaking Ceremonies were held — including members of the Sophomore Class (They will enter the new building as Seniors)

#### June 15, 1973

A contract was finalized with Bion E. Reynolds Contracting, Inc.

#### August 9, 1973

Bids on the \$1,175,00 bond issue were opened at the First National Bank of Boston. The bonds were sold at an interest rate of 5.85%.

#### October — November 1973

Bids on furnishing and equipment were sent out and purchase orders have been processed for summer delivery. (The bulk of this very exten-

sive work has been handled by Assistant Superintendent John H. Sokul and Principal David Sherburne).

#### February 1, 1974

Construction is considered slightly behind the original time-table, but the contractor expects to finish on schedule.

#### July — August 1974

Equipment is scheduled for delivery and installation.

#### August 1, 1974

Estimated completion date.

#### September 1974

Planned occupancy for Grades 7-12 for 1974-75 School Year.

### 1974-75 — STAFF

The two building set-up calls for several changes in staff assignments. Some of these include:

Principal will have over-all responsibility for both buildings — Grades 1-12.

Assistant to the Principal for Grades 7-12 and Math Assistant to Principal for Grades 1-6. (An elementary teacher will be employed part-time to permit a regular staff members to perform these duties).

Present Industrial Arts/Driver Education teacher will handle Work Study Program, Drafting, and Guidance.

Present Business Education/Librarian Staff Member will become Librarian for both buildings.

Additional elementary teacher to provide eight divisions for six grades.

Additional Business Education/English teacher to provide an expansion in business education subjects.

Additional teacher for Industrial Arts/Driver Education.

One additional aide for the High School Library.

### 1974-75 NEW BUILDING COSTS

The increase in the budget relating to the new building is as follows:

Staff	\$ 31,200
Custodians	10,200
Retirement	2,900
Health Insurance	1,384
Fuel	10,500
Electricity	9,000
Telephone	1,163
Insurance	4,500
Principal on Debt	40,950
Interest on Debt	67,000
Total	\$178,797

## SCHOOL LUNCH

With the new school in operation, cooking for both buildings will be done at the High School with the food transported to the Elementary school. Mrs. Reta Morse, who is completing twenty years as Manager of one of the most successful programs in New Hampshire, will be in charge of the programs at both schools. Her talents and services have been recognized beyond Sunapee and New Hampshire as she is presently a nominee to the Executive Council of the nation-wide American School Food Service Association.

## CONCLUSION

The tremendous effort of so many in the various stages of the construction program should not pass without mention.

A special thanks is extended to the Selectmen, Building Review Committee, School Board, and the entire staff — professional and non-professional for their extra work and effort.

We could not have a new building without the understanding, patience, confidence, and support of the citizens of Sunapee. This is greatly appreciated.

Respectfully submitted,  
GORDON B. FLINT  
*Superintendent of Schools*

The entire staff for grades 1-12 have been working since June of 1973 on a study of the curriculum. Much time and effort have been spent on this project and we hope to incorporate this program in both elementary and secondary levels when the new Junior-Senior High School opens.

Respectfully,  
DAVID W. \$HERBURNE  
*Principal*

The largest Farmers Home Administration loan ever made for a community water and sewerage project in New England was closed on July 18, 1973 when the Selectmen of Sunapee, New Hampshire, were handed two checks totaling \$2,283,000 by FHA County Supervisor, William P. Haubrich.

The funds are being used to finance the local share of a new water tank and about 1.5 miles of water mains and to construct a new secondary water pollution control facility and ten miles of sewers. The new treatment plant will eliminate a health hazard caused by discharges of sewage to the Sugar River and help protect the Class A quality of Lake Sunapee, the Town's water supply.
